If an after market engine/conversion, please list what you have: _____

Check your fluids! Top off with full synthetic BG fluids as needed. After install / BEFORE test drive, ALL FLUIDS (both A.T.F and Gear oil) MUST be checked. A.T.F must be checked at correct operating temperature. Failure to check your fluids will result in loss of warranty. *VW Eurovan transaxle only – must have our after market cooler installed for the warranty to apply & the shop you choose must have the Ross Tech VCDS software to do a relearn.

This is a prorated warranty and by signing below you are confirming you have read all enclosed warranty paperwork and agree to the terms and conditions of this warranty.
